NoWire™ & CellConnect™

For properties with up to 32 meters

Submeter Solutions, your submetering and utility billing service expert now offers products and services that are targeted for smaller properties – from duplexes up to 32 meter points.

Meters – Water, Gas and Electric meters and Runtime modules for all sizes and applications – residential and commercial.   Contact us for pricing for specific meter models.

NoWire™ - Wireless Input Point Solution. Wireless receiver and display of up to 32 meter points. Uses Inovonics Echostream™ battery powered Transmitters with standard 5 year life. Includes serial port to equipment for data logging and remote connectivity.

> *Price*
> - *Transmitters - $57 each*
> - *NW1100-1 Display - $795*

CellConnect™ - Cell modem for remote meter reading. Modem connects via serial port to NoWire™. Includes T-Mobile SIM card. Subscribe to one of the following monthly meter reading or billing services.

> *Price $495*

MeterData ™ Service – A monthly report will be provided that contains the meter data for each unit. This information will be made available either via an email or by logging onto a web site with username.   Price includes cell service.

> *Price $30/month*
> *Note: Annual subscription required.*

ResidentBill ™ Service - Submeter Solutions will prepare an individual utility bill for each resident and will send bill via mail. Price covers up to 2 utilities (example: water and sewer). We will add service charge to bill of up to $5.00 – paid by resident to property owner.

> *Price*
> - *$5 per month per tenant*
> - *$100 per month property minimum*
> *Note: Annual subscription required.*

> ***Your cost will only be what is not recovered from service charge!***
