

- Meets AWWA C708 Accuracy
- Hot or Cold meter models
- Pulse Output
- ECO Brass No Lead

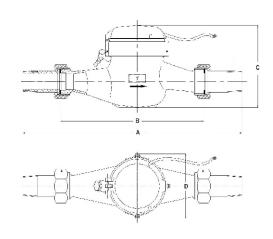

he MultiMag<sup>™</sup> series water meters utilize multijet principles for accurate water measurement and are known for their simplicity, longevity and accuracy. The MultiMag<sup>™</sup> is tested to the most recent AWWA C708 accuracy standards. The pulse output capability allows for the MultiMag<sup>™</sup> to be used for remote reading. The MultiMag<sup>™</sup> is intended for horizontal applications. In addition to the various sizes, the MultiMag<sup>™</sup> is also available in hot and cold versions.

## **Technical Characteristics**

TEMPERATURE	Cold	105° F
	Hot	194° F
MAX PRESSURE	150psi	
MATERIALS	Body	ECO Brass - NO LEAD
	Internals	Thermoplastic
PULSE OUTPUT	6mA @ 12vdc	
PULSE VALUE	1/1gal or 1/10gal	

FLOW RATE								
GPM	3/4"	1"	1-1/2"	2"	% Error			
MIN	0.5	0.75	1.5	2	3			
MAX	30	50	100	160				
CONTINUOUS	15	25	50	80	1.5			
RANGE	2-30	3-50	5-50	8-160				

DIMENSIONS							
	3/4"	1"	1-1/2"	2"			
Α	11.5"	15.6"	17.8"	21.0"			
В	7.5"	10.75"	12.625"	15.25"			
С	5.3"	5.3"	6.8"	6.8"			
D	3.9"	3.9"	4.8"	4.8"			
Weight	4 lb.	5 lb.	10 lb.	14 lb.
